
quaerere-willamette-common Documentation

Release 0.1.0

Caitlyn O'Hanna

May 31, 2019

Contents:

1	API	1
2	About	3
2.1	Links	3
3	Installation	5
4	Usage	7
5	Indices and tables	9
	Python Module Index	11
	Index	13

```
class willamette_common.schemas.WebPageSchema (extra=None, only=None, exclude=(), pre-  
                                              fix="", strict=None, many=False, con-  
                                              text=None, load_only=(), dump_only=(),  
                                              partial=False)  
  
class willamette_common.schemas.WebSiteSchema (extra=None, only=None, exclude=(), pre-  
                                              fix="", strict=None, many=False, con-  
                                              text=None, load_only=(), dump_only=(),  
                                              partial=False)  
  
class willamette_common.schemas.web_pages.WebPageSchema (extra=None, only=None,  
                                                         exclude=(), pre-  
                                                         fix="", strict=None,  
                                                         many=False, con-  
                                                         text=None, load_only=(),  
                                                         dump_only=(), par-  
                                                         tial=False)  
  
class willamette_common.schemas.web_sites.WebSiteSchema (extra=None, only=None,  
                                                         exclude=(), pre-  
                                                         fix="", strict=None,  
                                                         many=False, con-  
                                                         text=None, load_only=(),  
                                                         dump_only=(), par-  
                                                         tial=False)
```

quaerere-willamette-common contains the common elements shared between the willamette micro-service and client.

2.1 Links

CHAPTER 3

Installation

Using pip:

```
pip install quaerere-willamette-common
```

Or using setup.py:

```
python setup.py install
```

Tests can be ran using:

```
python setup.py test
```

Documentation can be generated using:

```
python setup.py build_sphinx
```

CHAPTER 4

Usage

CHAPTER 5

Indices and tables

- `genindex`
- `modindex`
- `search`

W

- `willamette_common`, 1
- `willamette_common.models`, 1
 - `willamette_common.models.web_pages`, 1
 - `willamette_common.models.web_sites`, 1
- `willamette_common.schemas`, 1
 - `willamette_common.schemas.web_pages`, 1
 - `willamette_common.schemas.web_sites`, 1

W

WebPageSchema (class in
 willamette_common.schemas), 1

WebPageSchema (class in
 willamette_common.schemas.web_pages),
1

WebSiteSchema (class in
 willamette_common.schemas), 1

WebSiteSchema (class in
 willamette_common.schemas.web_sites),
